

Termination Box 999105, 999106

Description

Termination box 999105 is suitable to connect the drop cables to the raiser fibers splices. It is also suitable to connect cable and pigtails. The termination box is for indoor wall Mounting.

Features

- Light weight, small size, easy installation.
- Provide splice connection protection of fiber cable and pigtail.
- Made of engineering plastic material, which has mechanical strength, therefore it is reliable and long lasting.
- Slide-N-Lock fiber optic splice tray with its opening angle above 90°. Therefore it is easy for installation and maintenance.

Specification
