OPTICAL FIBER FUSION SPLICER

FOR TRUNK LINE CONSTRUCTION, FTTH
PROJECT, SECURITY MONITORING ETC.

www.sczhuoshi.com

SIGNAL FIRE TECHNOLOGY CO., LTD.

AI-9

PRODUCT INTRODUCE

AI-9 is a fully automatic, mainline fiber optical fusion splicer with six motors and fiber core alignment, capable of welding long-distance fiber optic lines. Also within VFL and OPM function. Adopting industrial grade CPU, with fast running speed, 5-second rapid fusion welding, 15-second rapid heating, 5-inch high-resolution LCD screen, 300x magnification; The work efficiency is increased by 50% compared to ordinary welding machines; Large-capacity lithium battery can be heated by fusion about 260 cores, out standing performance in harsh environments such as high altitudes, deserts and extreme cold.

magnification

Industrial CPU, fast response, it is one of the fastest optical fiber welding machines on the market.

Use 5-inch 800X480 high-resolution screen, simple and intuitive operation graphics.

Up to 300x focusing magnification makes it easy to observe the core with the naked eye.

MASTERPIECE HIGH-END LUXURY

OPTICAL FIBER FUSION SPLICER

AI-9

MASTERPIECE
HIGH-END LUXURY

Within VFL and OPM function

Effectively measure connection losses, verify continuity, and help evaluate fiber link transmission quality

OPM

Switch between six states

Wavelength: 850nm; 1300nm, 1310nm, 1490nm, 1550nm, 1625nm

VFL

Switch between three states

power: 15mW, 2Hz flashing and steady on mode

AI-9

MASTERPIECE
HIGH-END LUXURY

Industrial quad-core chip CPU

1 second startup will enter the working state
without waiting

OPTICAL FIBER FUSION SPLICER

3-IN-1 UNIVERSAL FIXTURE

Jumper
fiber
(pigtail)

Drop cable

bare fiber

AI-9

MASTERPIECE
HIGH-END LUXURY

7800mAh lithium battery

Battery charging "New upgrade"

Dual charging

Even if a fault occurs, another channel can be used for charging

Charging channel ①

Charging channel ②

- Charging time ≤ 3.5 hours;
- In full state, 260 cores can be continuously fused and heated

Charging method III

The battery can be removed and charged separately

Press to popup the battery

Charging mouth

Input voltage : $13.5 \pm 0.5V$

Input current :4.8A

Power indicator light

Charge indicator light

Press to check
the power level

Instruction list list
Distribution correction

Fiber alignment	Core/cladding
Motor number	6 motors
Splicing time	5s
Heating mode	15s, can be customized according to the external environment
Fiber type	Single-mode fiber (SMF/G.652), BIF/G.657); Suitable for single mode, multi-mode, bare fiber, tail fiber, drop cable, jumper, invisible fiber fusion;
The cladding diameter	80-150 μm
Splicing loss	0.02dB (SM) 、 0.01dB (MM) 0.04dB (DS/NZDS)
Splicing mode	Automatic focusing core alignment, conventional/high precision welding
Splicing way	Automatic, semi-automatic
Fiber holder	Three in one fixture, no need to change, suitable for single/multi-mode, multi-core cable/bare fiber, tail fiber, jumper fiber,drop cable
VFL	The machine comes with: power: 15mW, 2Hz flashing and steady on mode
OPM	Wavelength: 850nm; 1300nm, 1310nm, 1490nm, 1550nm, 1625nm/Measurement range: -50+26dbm Absolute error: <0.3dB (-50dbm ~+3dBm range)
Battery capacity	7800mAh large capacity lithium battery charging time ≤3.5; It can continuously weld and heat about 260 cores
Magnification	300 (X or Y), 150 (X or Y)
Fiber diameter	Coating diameter: 80-150μm/Coating diameter: 100-1000μm
Cutting length	Coating layer 250μm below: 8-16mm/coating layer 250-1000μm: 16mm
Heat shrink tube	60mm、 50mm、 40mm、 25mm
Tensile testing	standard 2N
display	5 inch TFT color display screen
External lighting	USB port can be connected with EXTERNAL LED light, convenient for night construction
Charge mobile device	The USB port can charge mobile devices such as mobile phones
Boot time	1s, boot can enter the working mode
Data is stored	Unlimited, machine storage 1000 groups, the excess part can be stored in the server, can export data.
Wireless communication	Based on bluetooth 4.2 protocol standard, the working band is 2.4GHZ, the maximum transmission range is 60m
Software upgrade	Mobile phone APP Internet update, enable Bluetooth synchronization upgrade machine software
Management function	The equipment owner can be bound as the highest authority, and can remotely view the welding records, welding time, loss, etc. through the mobile phone APP. The number of welding times or working time of the equipment can be set. The manager can effectively manage a single or multiple equipment.
interface	USB2.0 (Type A) can be used to connect external LED lights and charge mobile devices
Return loss	Better than 60 db
Product protection	Waterproof, dustproof and fall proof
Power supply	Input AC100-240V 50/60Hz, output DC13.5V/4.8A, the current power mode can be identified, real-time monitoring of the current battery level
The work environment	Temperature: -15 ~ +50°C, humidity: < 95%RH (no condensation), working altitude: 0 ~ 5000m, maximum wind speed: ≤15m/s

Intelligent interaction, avoid tedious

Scan the QR code of the welding machine startup screen to download the Mobile APP

The phone connects to the splicer via Bluetooth

- Welding record can be read through mobile phone, and the data can be exported;
- You can set the parameters of the welding machine, such as selecting the machine language, changing the heating time, selecting the fiber optic alignment mode, etc;
- You can manage the welding machine, such as setting the use time of the machine, welding times, etc;
- Upgrade the phone APP, bluetooth connected to the machine to upgrade the machine software;

AI-9

INTELLIGENT INTERACTION AVOID TEDIOUS

After it is opened, there will be voice prompt in the whole process from fiber laying, fiber matching, welding and loss value. In case of unqualified items, it will be directly informed.

Adapt to bright light, dark and other different outdoor environment

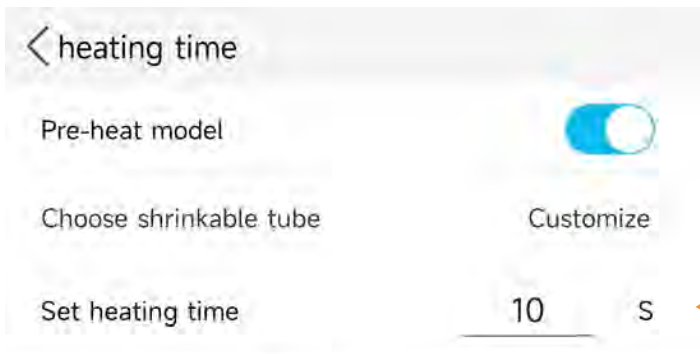

Major global languages available

Learning operation: from cutting fiber, stripping fiber to welding machine operation have detailed tutorials

AI-9

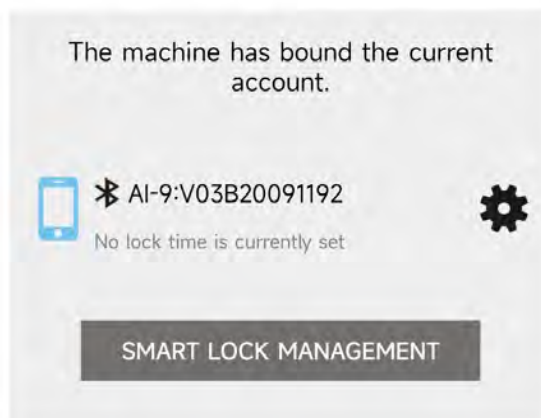

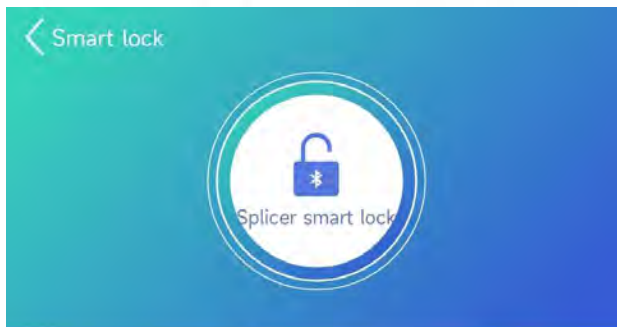

INTELLIGENT INTERACTION AVOID TEDIOUS

Heating time can be customized, extremely cold weather and hot summer can be appropriately extended or shortened

Preheating mode: The welding is completed. When the windshield is opened, the heater is heated in advance for 6 seconds. Turning on the preheating mode can appropriately reduce the heating time of the heat shrinkable tube to improve efficiency.

Note: In winter or low temperature, heating is not ideal, and the heating time can be extended appropriately.

Rent mode: you can set the use time or welding times of the machine, the machine stops working when the expiry date expires, after the new machine is received, bind your mobile phone number and set as the highest management authority, you can control the device.
