

TC-580B

SIMPLE FIBER TOOL KIT

I. INTRODUCTION

TC-580B Simple Fiber Tool Kit is especially used in the FTTx solution, combining the function of the in-door cable stripper, cleaver, cleaning and testing. It is a perfect tool kit in the fiber optic installation and maintenance.

II. PACKAGING LIST

- TC-36 Series Optical Power Meter_ 1 pcs
- TC-10 1MW Visual Fault Locator_ 1 pcs
- Dual Hole Miller Pliers_ 1 pcs
- Fiber Cleaver_ 1 pcs
- Cable Stripper_ 1 pcs
- Alcohol Bottle_ 1 pcs
- Fiber Rail Fixer_ 1 pcs
- Carrying Bag_ 1 pcs

III. DETAILS

TC-36 Optical Power Meter

- Measurement Range: -70~+10dBm or -50~+26dBm
- Wavelength: 850/1300/1310/1490/1550/1625nm
- Adapter: SC/FC/ST

TC-10 Visual Fault Locator

- Output Power: 1mw
- Range: >5km
- Wavelength: 650nm
- Working Mode: CW or 2Hz Modulation

Fiber Cleaver (Better Quality)

- Suitable Fiber: SM/MM Fiber
- Coating Diameter: 0.25mm&0.9mm
- Cladding Diameter: 125um
- Blade Life: 48000 times

Dual Hole Miller Pliers

- Removal of 250 um buffer from 125 um fiber,
 - Additional stripping notch with a diameter of 1.98 mm
-

Cable Stripper

- Using Range: 3.1*2.0mm Indoor Cable
 - Fiber Diameter: 125um
 - Cut Material: Reinforced Plastic or Metal Core
-

CARRYING BAG

- Outside Dimension: 260*150*200mm
 - Inside Dimension: 230*130*170mm
-

Fiber Rail Fixer

250ML Alcohol Bottle
